ABOUT ME

I'm Umar Mallick, a dedicated Web Developer with expertise in HTML, CSS, Bootstrap, WordPress, and Elementor. I specialize in transforming Figma UI designs into fully functional, dynamic WordPress websites with clean, responsive layouts. My focus is on building custom sections, optimizing themes for speed and performance, and delivering SEO-friendly, user-centric designs. I aim to create seamless, high-quality web experiences that not only meet but exceed client expectations.

EXPERIENCE

EvolvSolutions 2024 - Present
Wordpress Developer

- Transformed modern Figma designs into fully functional WordPress websites using Elementor. Built responsive layouts, crafted custom sections, optimized themes, and ensured SEO-friendly, user-focused sites tailored to client requirements.

Fronxsolutions 2023 - 2024
Wordpress Developer

- Converted Figma-based UI concepts into dynamic WordPress websites via Elementor. Delivered mobile-responsive designs, unique custom sections, performance-optimized themes, and search-engine-ready websites aligned with client objectives.

BuraqTech 2022 - 2023
Community Engagement & Sales

- Served in Community Engagement & Sales at Buraq Tech, actively engaging audiences on Kick, Twitch, and Discord, building trust and converting prospects into loyal customers through tailored service offerings.
